Portfolio:

## SUMMARY

I am an enthusiastic and skilled BTech graduate with internships in data science and full-stack programming. With experience across various languages and platforms, I am a quick learner eager to contribute to the design and development of high-performance, user-centric applications. My strong analytical abilities and problem-solving mindset enable me to add value and help organizations achieve their goals.

## EXPERIENCE

### Full-Stack Intern

[OctaNet Services Pvt Ltd](#) | 09/2024 - 11/2024 | Virtual

- Developed scalable web applications using Java, Spring Boot, and Angular.
- Designed and integrated RESTful APIs with Express.js for seamless front-end and back-end communication.
- Implemented basic database management features using MySQL for efficient data storage.

### Data Science Intern

[Upskill](#) | 03/2023 - 04/2023 | Virtual

- Applied statistical analysis, machine learning algorithms, and data visualization techniques to extract insights from complex datasets.
- Developed predictive models and streamlined data processes using Python.
- Collaborated with team members to meet project requirements and deliver impactful solutions.

## EDUCATION

BTech in Computer Science and Engineering

[Study World College of Engineering](#)

10/2021 - 04/2025 Coimbatore, Tamil Nadu, India

Board of Intermediate Education

[Narayana Junior College](#)

06/2019 - 05/2021 Guntur, Andhra Pradesh, India

SSC

[KVR ZP High School](#)

06/2017 - 03/2019 Krishna, Andhra Pradesh, India

## PROJECTS

### Work Force Analytics and Evaluation System

- Developed an automated online system for employee performance monitoring.
- Enabled real-time tracking of employee activities to assist the admin team in evaluations.
- Improved task and time management to optimize workload distribution.

### Smart Personal Cloud Management System

- Designed and implemented a personal cloud management system using Virtual Machines (VMs) and a private DNS server.
- Provided secure online data storage with optimized space management.
- Delivered a cost-effective solution for personal storage monitoring and management.

### Real-Time Chat Application

- Developed a real-time chat application using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Ensured an intuitive user experience with seamless communication features.
- Designed for easy maintenance and scalability.

## SKILLS

Angular	Java	HTML	CSS	Python
C	MERN	JavaScript	API Design	
MongoDB	NoSQL	SQL	Spring Boot	
Express.js				

## CERTIFICATIONS

- Certified in Tata Imagination Challenge in 2023
- Certified in Accenture Innovation Challenge in 2023
- Certified in Manipal National Level Hackathon 2022
- Finalists in Smart India Hackathon 2022
